MERCHANDISE

TLA

COMMUNITY CLUBS

TLA HAS THE LICENSING RIGHTS TO MANUFACTURE PUMA & SHERRIN BRANDED TEAMWEAR APPAREL FOR LOCAL COMMUNITY SPORTING CLUBS.

TLA Merchandise assists Community Sports Clubs with their on and off field needs through our unique offering of iconic branded apparel and specifically designed services.

In a growing and competitive market we aim to provide quality product and service understanding the challenges and needs of local sporting clubs run by dedicated volunteers.

PUMA / SHERRIN

Two iconic sports brands renowned worldwide

CUSTOM DESIGN

Designing on and off field merchandise for player and supporter

IN-SEASON PUMA STOCK

Quality branded product available all year round.

EMBELLISHMENT

Ability to embellish club and sponsor logos on in-season stock

FULFILMENT

Understanding of club needs to simplify the ordering process and deliver stock in full and on time.

SERVICES

Utilizing our talent and services across the wider business we can offer real solutions to the challenges facing Amateur Clubs.

PRODUCTION

Quality and Performance

All our products are designed to not only look good but also perform.

Many of our features and benefits cannot be seen to the naked eye and it's not until you wear and perform in the garment that you fully understand why Puma is one of the leading sports brands in the world and worn by some of the biggest sporting teams and individuals known.

Men's, Women's, and Youths sizing available in all models. [Also](#) extra length available as an option (ELITE JUMPER)

DRY CELL: patented moisture management technology that wicks moisture from the body to the outside of the garment to keep the player dry and cool.

ANTI-PILING / COLOUR FASTENING / ANTI STAIN are all fabric applications to lengthen the life of the garment and ensure it looks and feels brand new week after week.

ANTI-BACTERIA bamboo based coating is applied to the fabric which destroys certain bacteria keeping the garment smelling fresh.

FABRIC STANDARDS: Every production order for ALL materials used in the construction of our range must pass through an independent test ensuring quality and consistency of our product.

LIGHT WEIGHT: 145gm double knit polyester fabric with mesh panel inserts available for comfort and performance.

SET IN SLEEVE

This is the more traditional design with the front and back panel joining on the front shoulder and the sleeves are then 'set in' or sewn onto the garment. As the body panels are rectangular in shape the Set in Sleeve design works well for straight line patterns such as stripes, hoops and diagonal sashes. The design also suits Clubs looking for that clean look in one or two color ways

Second or third color can be added with shoulder panels, collar, sleeve and/or sleeve trim.

RAGLAN SLEEVE

Raglan design is characterized by having sleeves that extend all the way to the neck and collar rather than ending at the shoulder as per the set in sleeve. The raglan design allows a freer range of motion as it doesn't have a shoulder seam and fits equally well on people with broad or narrower shoulders. This raglan design also comes with a side mesh panel starting from the armpit to the waist. The mesh panel provides breathability and helps the player stay cool. You can choose to keep the side panel solid as per the rest of the garment.

The Raglan design is perfect for color blocking the sleeve. Other color options come with the shoulder panel, collar, side panel and sleeve trim.

LIGA RAGLAN SLEEVE

A different Raglan design with the sleeve connecting towards the back of the collar. This design allows for a tapered body shape and a distinct clean look. As a raglan sleeve it allows a freer range of motion as it doesn't have a shoulder seam and fits equally well on people with broad or narrower shoulders.

The Raglan design is perfect for color blocking the sleeve. Other color options come with the shoulder panel, collar and sleeve trim.
