EVERYTHING FOR YOUR CLUB

When we say everything for your club - we mean it!

At SELECT you will find a big range of products whether you need a new football, handball, sports clothes, team gear for training or one of our Profcare sports supports or care products. We cover every need from amateurs to professionals, and from children to adults. Our sports clothing lines includes clothes for both training and match, and our leisure lines contains comfortable clothing for relaxation.

This year we are presenting one of our biggest new football ranges yet, with more than 40 new designs.

We are also expanding our Planet Family with a brand new Planet handball. Our Planet balls are partly made from recycled PET bottles and natural latex which reduces the environmental impact from the ball.

Sustainable initiatives are a focus point at SELECT Sport. We want to reduce our use of plastic and to use even more recycled materials in our products.

From the 1st of July 2023 we will update some of our prices and products. So, please note that the prices in the printed catalogue for 2023, will be outdated by July 1st.

FOOTBALLS

FOOTBALLS: Introducing new designs and colors in all our football ranges. With more than 40 new designs this year, this is one of our biggest ball releases yet. Whether you need a new professional, club, youth, indoor or leisure football, you will find it in our new football range.

All our balls today are still based on SELECT founder Eigil Nielsen's original invention of the 32-panel ball construction, as we never compromise on quality, playability, or durability. With the 32 panels – 20 hexagons and 12 pentagons – Eigil Nielsen succeeded in creating the roundest ball ever seen. A ball with optimum roundness is essential to obtain a straight flight and a controlled bounce.

NEW

GOALKEEPER GLOVES

Our new v23 goalkeeper glove range contains nine new designs.

This year our professional match glove 88 Pro Grip glove comes in both red and white. The 88 Pro Grip is a lightweight glove in a negative cut with 3mm Quartz latex for a perfect grip in all kinds of weather. It has airprene inside for great comfort, flexibility, and minimal water absorption. Furthermore, we are introducing the 88 Pro Grip Aqua, which has 3 mm Aqua Latex for a perfect grip in wet conditions. The 88 Pro Grip Aqua is available from July 2023.

Our 93 Elite, 90 Flexi Pro, 33 Allround, 90 Flexi kids, 88 Kids and 03 Youth, comes in new v23 designs as well.

Alberte Vingum Andersen - HB Køge

SELECT PROFCARE

MEDICAL BAGS

Introducing a new v23 medical bag range.

The new medical bags come in three different sizes: Mini, Field and Junior available with or without contents.

The Field medical bag is a new size, for the users who need a little more than a mini bag. The Junior medical bag come with a new zipper for an easier and faster access to the bag.

The bags are created in cooperation with the medical team at the Danish Superliga club FC Nordsjælland.

THE SELECT PLANET FAMILY

We are proud to present a new member in the SELECT Planet family – the new Planet Handball. This means that our SELECT Planet Family now contains a Planet Football, a Planet Futsal, and a Planet Handball.

All the balls in our SELECT Planet Family are characterized by the fact that the synthetic leather used is made by recycled PET bottles. Furthermore, all the balls have three to four layers of textile underlining, which helps to ensure that the 32 panels remain stable, that the ball has just the right bounce, and it helps to achieve the desired weight on the ball. All the balls in the SELECT Planet Family are produced with a specially developed underlining, where 80% of the material comes from recycled PET bottles.

The newest addition, the white Planet Handball, is a special edition, and will only come in limited quantities. From September 2023 our green Planet handball will be available.

SUSTAINABLE **EFFORTS**

We know that our actions matter

We are continuously taking sustainable steps in our production, packaging and transportation. We want to reduce the use of plastic in our packaging and are focusing on introducing recycled materials in our products. By using recycled materials, the environmental impact of our products is reduced.

New sustainable efforts at the ball factory An installation of **404 solar panel modules** on the rooftop at our ball supplier Anwar Khawaja Industries factory in Sialkot, Pakistan has been completed. The installation is expected to reduce CO₂ emissions by **270 tons annually**. The factory is also ISO 14001 environmental certified and SMETA 4-pillar certified.

Baselayer underwear for sports made with Repreve® Polyester - a yarn made from recycled plastic bottles

We saved 300.000 plastic packets annually

by switching our Profcare Support packaging from plastic to a smaller cardboard packaging, thereby reducing our transport volume

Our factory is now only using recycled plastic bags when producing our footballs and clothes

Oxford leisurewear with 40% recycled polyester

Eco ice pack, a CO₂ friendly ice pack without water. By omitting water in the ice packs, we avoid transporting water and will reduce the CO, emissions compared to our regular ice packs containing water

We have reduced our use of plastic **by 50%** in the packaging of the MONACO, SPAIN, OXFORD and PISA clothing lines

Recyclable water bottles in a bio-based material processed from sugar canes

The Planet football, the Planet handball and the futsal Planet, are balls partly made from recycled plastic bottles and natural latex

To produce our 2023 catalogue, we have chosen a sustainably conscious printing house carrying the Nordic Swan Ecolabel. the ISO 14001 certification and an FSC certification

THE ORIGINAL 32 PANEL **BALL CONSTRUCTION**

Every single football, handball and futsal ball from SELECT is based on the revolution from 1962, where our founder. Eigil Nielsen, invented a ball made of 32 panels. The overriding desire was to create the most reliable ball with the most predictable, straight flight and a bounce neither too high nor too low.

It was impossible to make a perfectly round ball with just 18 panels, which was the standard construction of a ball in the past. With the 32 panels - 20 hexagons and 12 pentagons - SELECT succeeded in creating the roundest ball ever seen. Later, a group of American scientists won the Nobel Prize for discovering that the molecules of carbon with a special irradiation organize themselves as a completely round ball - something Eigil Nielsen had already discovered and realized in his football with 32 panels, why the reinvention was named "the football molecule".

A ball with optimum roundness is essential to obtain reliable aerodynamic - a straight flight and a controlled bounce. Our finest football, BRILLANT SUPER TB, has been thoroughly tested in a wind tunnel at the Institute of Health & Sports Science at the University in Tsukuba, Japan. The results show that BRILLANT SUPER has a better aerodynamic than other top balls in the market. The ball's classic construction with 32 panels means that the ball meets resistance at a later point in its trajectory through the air, thus retaining a steady, high speed over a longer period of time. This provides a stable and more predictable flight - highly valued by all football players.

The majority of our balls are still based on Eigil Nielsen's original invention of the 32 panel ball construction, as we never compromise on quality, playability or durability.

FOOTBALLS

OFFICIAL LEAGUE MATCH BALLS

SELECT is the official match ball supplier to the Swedish Allsvenskan and Superettan, the Danish national team, the Icelandig league, the Bosnian and Herzegovinian league, the Czech league, the Romanian league, the Danish men's and women's league and first division, the Norwegian men's and women's league and the Finnish league. Our BRILLANT SUPER ball is also supplied to a vast number

of teams and federations around the world. Furthermore, our German subsidiary DERBYSTAR is the official match ball supplier for the Dutch league and the German Bundesliga. The Bundesliga is ranked as one of the world's best football leagues by FIFA

OFFICIAL LEAGUE MATCH BALLS

In USA, SELECT is the official match ball of the USL and NJCAA as well as several High School State Conferences nationwide.

INSPIRED BY 60 YEARS OF BUNDESLIGA!

This is the TWO new DERBYSTAR by SELECT official Bundesliga match balls for the 2023/24 season

On the occasion of the 60th anniversary of the Bundesliga, the sports goods manufacturer from Germany was inspired by the look of classic footballs balls from the beginning of the Bundesliga when creating the design and reinterpreted it for the new official match ball. While in the past the 12 pentagons were monotonously black, DERBYSTAR has upgraded them with dynamic design elements and eye-catching colors to create an innovative look for the new official match ball.

OFFICIAL PARTNER

First Official Bundesliga match ball partly produced of recycled material

An innovation is hidden in the material of the new ball: For the first time, recycled material is used in the production of an official match ball of the Bundesliga. In total, around 10% of the new Official Bundesliga Match Ball is made from recycled polyester by weight.

FORTUNA:LIGA

SELECT is from the season 2023/2024 also the official ball supplier to the best Czech league Fortuna Liga.

It is the first time in history that Fortuna Liga has an official league ball and SELECT is the official ball supplier of Fortuna Liga for the next four seasons.

Fortuna Liga plays with a unique designed Brillant Super TB football.

3F SUPERLIGA

SELECT is the official ball supplier to the best Danish leagues for both men and women, including men's 1st and 2nd division.

3F Superligaen, NordicBet Ligaen and Gjensidige Kvindeliga are playing with the new Brillant Super UZ - the worlds first football made with ultrasonic technology.

All matches in the men's 2nd division are played with the Brillant Super TB. A new and exclusive ball design is introduced every season.

Cooperations with the leagues ensures the best balls on the market for all stadiums.

ALLSVENSKAN & SUPERETTAN

SELECT is the official match ball supplier to Allsvenskan and Superettan, and the partnership has evolved through the years to now include official SELECT clothing with match and training wear in several Allsvenskan football clubs.

Allsvenskan, Swedish Football League, is the highest league in Sweden founded in 1924. 16 teams are in the league playing from spring to autumn. Superettan is the

second highest league, which has been played since 2000, and the two best teams from the Superettan matches advance to Allsvenskan.

Every year the champions of Allsvenskan lift the Lennart Johansson Trophy named after late Lennart Johansson who among other things was President of UEFA between 1990-2007.

ELITESERIEN & TOPPSERIEN

SELECT is the official match ball supplier to Eliteserien, OBOS league and Toppserien. Eliteserien and Toppserien are the top football leagues in Norway for men and women with 16 teams in Eliteserien and 10 teams in Toppserien.

Through our partnership, we are also official clothing suppliers to two teams in Eliteserien with our teamwear, training wear and leisurewear.

SELECT is also official match ball supplier to the Norwegian Championship for men and women, through the Norwegian Football Association, where the annual finals take place in December.

THE FIRST FIFA QUALITY PRO APPROVED FOOTBALL, WITH A SENSOR INSIDE

SELECT Brillant Super iBall

SELECT and German KINEXON have co-developed the intelligent SELECT Brillant Super iBall – a football with an integrated tracking sensor that will improve the football experience for everyone, as completely new data from football matches will now be available.

SELECT Brillant Super iBall combines SELECT's in-depth knowledge of football with KINEXON's expertise in electronics, tracking and analysis.

SELECT Brillant Super iBall is the first football with an integrated sensor to be FIFA Quality Pro approved, which means it can be used in the top football leagues. Only footballs that have been FIFA Quality Pro approved can be used in international matches organized by FIFA. The new SELECT iBall has passed all of the required tests and is now ready to be played with in every top league around the world.

FUTSAL BALLS

ULTRA ZONIC BONDED

- GROUNDBREAKING TECHNOLOGY

Introducing the groundbreaking Brillant Super UZ - the world's first football made with ultrasonic technology. We have created a ball with unsurpassed control and amazing aerodynamics as the new construction method ensures the perfect indentation between the panel and an even more stable flight benefiting both players and goal-keepers.

Brillant Super UZ is made using a brand new and Danish patented construction method in which ultrasonic sound waves bond the 32 panels of the ball together. The panels are held together using pressure and ultrasonic sound waves activate the microfiber molecules by creating friction. This bonds the panels together.

The ball's surface is a new and improved PU microfiber material from Japan, which is manufactured using a water-based method. The PU surface has a new 3Ddiamond structure that ensures optimized friction between ball and boot as well as the best grip for goal-

keepers. The new construction also holds a newly developed foam lining with two layers, which gives the ball a soft exterior. Inside, the Zero-Wing bladder is covered with a textile fabric to ensure the roundness of the ball. The compact interior of the ball with to the two-layer foam lining add a feeling of lightness and speed.

The Zero-Wing latex bladder has a built-in balance point located opposite the valve hole, which ensures that the ball is in balance, retains air and has the right bounce. In short, the Brilliant Super UZ is comprised of the best quality materials available. The ball has undergone thorough testing by more than 300 professional players in 2020 with very positive feedback.

Brilliant Super UZ is suitable for matches at the absolute highest level, and the combination of the construction and the materials ensure the best playing abilities and the best durability.

Approval	Ball size	Circumference	Normal weight	Light weight
	3	60 - 62 cm	320 - 340 g	280 - 310 g
	4	63.5- 66 cm	350 - 390 g	290 - 320 g
	5	68 - 70 cm	410 - 450 g	350 - 380 g
FIFA Basic	5	68 - 70 cm	410 - 450 g	
FIFA Quality Pro	5	68.50 - 69.50 cm	420 - 445 g	

THERMO BONDED

- QUALITY INSIDE AND OUT

BRILLANT SUPER TB has the characteristics that distinguish a classic SELECT ball and is suitable for matches at the absolute highest level. The materials are carefully selected and have exactly the qualities that give the best playability and durability.

The optimum roundness is ensured with the well known 32 panels spread over 12 pentagons and 20 hexagons. The outer material of the ball consists of synthetic leather with a light surface structure that minimizes air resistance.

Under the synthetic leather hides the SELECT natural latex Zero-Wing bladder with built-in balance point in the opposite end of the valve hole. On the outside of the bladder is a lining made of a 4 mm. thick and exclusive foam material. The outer material and the underlying foam give the ball a softer, lighter and a more comfortable touch. Despite the fact that the ball feels lighter, the weight is the same as a traditional football.

TB stands for Thermo Bonding, a method that activates the glue with heat and pressure to bond the 32 panels. There are no stitches, and the TB ball takes up less water keeping the original weight better when playing on a wet surface.

The ball has, among other places, been tested at the Institute for Health & Sports Science at Tsukuba University in

Japan. The test results showed that the ball – just like other balls from SELECT – faces less wind resistance in the first part of the flight, moves easier through the air and meets wind resistance later than other balls on the market.

The FIFA Quality Programme for Footballs was introduced in 1996 to harmonise and improve the quality of footballs. Focusing on the ball, the very heart of the game, the prestigious FIFA quality labels are only given to balls that have passed rigorous testing.

FIFA Quality Pro is reserved for only the best standard of match balls available. FIFA Basic is the newest standard focusing on cost efficiency, durability and safeguarding player safety.

Approval	Ball size	Circumference	Normal weight	Light weight
	3	60 - 62 cm	320 - 340 g	280 - 310 g
	4	63.5- 66 cm	350 - 390 g	290 - 320 g
	5	68 - 70 cm	410 - 450 g	350 - 380 g
FIFA Basic	5	68 - 70 cm	410 - 450 g	
FIFA Quality Pro	5	68.50 - 69.50 cm	420 - 445 g	

HAND STITCHED

- HIDDEN BEHIND THE ELEGANT EXTERIOR

Common to all our balls is that the quality is high and the durability long. An optimally round football consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 630 double stitches and 60 corner stitches and are closed off - especially for SELECT - with a double knot. The ball lasts longer this way.

Hidden behind the elegant exterior of the balls in our Pro and Club Series is a Zero-Wing bladder made of high-performance natural latex. The concept has been developed to ensure that not only the ball but also the bladder is as round as possible. We solely use latex bladders in our footballs with build-in balance point at the opposite side of the valve hole. This, together with the Zero-Wing concept, ensures a perfectly balanced ball with a very lively bounce.

To stabilise the ball and ensure that it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness and improves the contact between the ball and the foot.

The outer layer of the ball is made of synthetic leather in polyurethane (PU). The surface of this material can be either "shiny", "grain" or "pattern" and consists of lots of PU fibres. Combined, this gives a strong surface with consistent softness.

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here, they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance. Our standards for quality are the highest in the industry and the balls are of course tested and approved according to FIFA standards.

The FIFA Quality Programme for Footballs was introduced in 1996 to harmonise and improve the quality of footballs. Focusing on the ball, the very heart of the game, the prestigious FIFA quality labels are only given to balls that have passed rigorous testing.

FIFA Quality Pro is reserved for only the best standard of match balls available. FIFA Basic is the newest standard focusing on cost efficiency, durability and safeguarding player safety.

DUAL BONDED

- IMPROVED STABILITY AND A SOFTER TOUCH

The special feature of the dual bonded production method is that the ball's 32 panels are both stitched together and then sealed in the edges.

A DB ball is a construction that consists of a PU-material laminated with foam. Next, two layers of textile underlining are laminated to the foam layer to add stability. The panels are then printed with 3 mm. edge glue and stitched by machine. The glue is activated in the heat mold to hide the stitches and the seam sealing is done by hand. By

using glue in the sealing of the seams, the water uptake is reduced significantly.

The bladder inside is an SR bladder with excellent air retention. The result is a football with both stability, control and a softer touch compared to other footballs. Brillant Training DB, Club DB, Atlanta DB, Talento DB, Future Light DB balls are produced using the dual bonding method.

SELECT Sport is the official ball supplier to Fortuna 1 Liga with Brillant Super TB as the official match ball for season 2022/2023.

This partnership between SELECT and Fortuna 1 Liga - the 2nd tier football league in Poland - started in 2020 and will last through three football seasons.

The agreement is the first of its kind for SELECT in Poland with a 2nd tier football league.

SELECT HISTORY

FUTSAL BALLS

SPONSORSHIPS IN THE WORLD OF FUTSAL

SELECT is official futsal ball supplier to a wide range of national teams, leagues and clubs worldwide. The best futsal leagues in Denmark, Latvia, Bosnia Herzegovina, Montenegro, Norway, Poland, Serbia, Sweden, Croatia and Ukraine all play their matches with our futsal balls, including the best league in USA.

FUTSAL EKSTRAKLASA

Futsal Super is the official match ball in Poland's Futsal Ekstraklasa season 2023/2024.

The first agreement between SELECT and Futsal Ekstraklasa was signed in 2011. Since then, SELECT has been the official match ball supplier for all following seasons.

SELECT Futsal Super has become a household name in Poland's futsal circles. A feat to be proud of.

THERMO BONDED

- LOW BOUNCE FOR OPTIMUM CONTROL

The popular SELECT FUTSAL SUPER is now thermo bonded. TB is a method that activates glue with heat and pressure to bond the 32 panels of the ball. There are no stitches, giving the ball a fantastic, soft touch.

Hidden behind the elegant exterior of the futsal ball hides a specially developed butyl bladder with polyester fibers inside. That ensures a very reliable low bounce compared to a normal football making it much easier to control. All our balls have a butyl valve inside covered by foam to avoid the bladder from puncturing when inflating the ball.

To stabilise the ball and ensure it remains round, the 32 panels are lined with several layers of textile material and foam. The lining and foam helps to adjust the softness and improves the contact between the ball and the foot.

The outer layer of the ball is made of synthetic leather in polyurethane (PU). The surface of the FUTSAL SUPER TB is in a new 3D diamond structure ensuring optimal friction between ball and boot.

High quality is essential for SELECT. Each ball undergoes a stringent test at our production facilities in Pakistan. The balls are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance. Our standards for quality are the highest in the industry and exceed FIFA's regulations for the best match balls. The balls are of course tested and approved according to FIFA standards.

	Circumference	Weight	Bounce	Approval
Futsal Super	62,5-63,5 cm.	410-430 g	55-65 cm.	FIFA Quality Pro

Futsal Talento 13	57-59 cm.	350-370 g	50-65 cm.	
Futsal Talento 11	52,5-54-5 cm.	310-330 g	50-65 cm.	
Futsal Talento 9	49,5-51,5 cm.	270-290 g	50-65 cm.	

DUAL BONDED

- FOR A SOFTER TOUCH AND OPTIMUM ROUNDNESS

Futsal is a technically demanding sport that requires a special ball.

We are introducing the futsal DB ball produced using the dual bonding method. The 32 panels of the ball are both stitched and sealed in the edges - the dual bonding method.

The panels of the ball are printed with a 3 mm edge glue and stitched by machine. The glue is activated in a heat mold to hide and seal the stitches. By using glue in the sealing of the seams, the water uptake is reduced significally and the ball is even more round, as you cannot feel the gathering of the panels.

The ball is made from a high-quality PU material and a special foam padding that ensures an extra soft touch and faster passes. Inside the ball is a specially developed butyl bladder filled with polyester fibers, which ensures a reduced bounce, perfect roundness, and easy control.

SPONSORSHIPS IN THE WORLD OF HANDBALL

SELECT is the world's largest producer of handballs and official match ball supplier to a wide range of associations, leagues and clubs around the world. All tournaments by EHF have SELECT as official match ball – including the EHF Champions League, EHF European League and the European Championships. Our ULTIMATE is the official league ball in France, Poland, Iceland, Norway, Slovenia, Serbia,

Lithuania, Estonia and Latvia and is used by many of the teams in the strong leagues of Denmark and Hungary.

SELECT is also supplier to the national teams of Austria, Chile, Iceland, Lithuania and Portugal and has been the Danish national team's preferred ball brand for over 50 years.

PGNIG SUPERLIGA WOMEN & MEN

SELECT Sport is the official match ball supplier to both premier Men's and Women's handball leagues, PGNiG Superliga Poland.

This sponsorship agreement is one of the longest, continuous contracts for SELECT in Poland. It all started in 2016, the same year PGNiG Superliga was founded.

SELECT Ultimate v22 is the official match ball for season 2022/2023.

EHI

LFH & LNH FRANCE

SELECT Sport is the official ball supplier to the French women's and men's handball elite leagues with Ultimate as the official match ball.

SELECT has been the official match ball supplier to the LNH (men's league) since 2012 and the LFH (women's league) since 2014.

Both French leagues are among the strongest leagues in the world, and both have extended their partnership with SELECT for the next coming seasons.

HAND STITCHED

- 360 DEGREES OF PERFECTION

Common to all our balls is that the quality is high and the durability long. An optimally round handball consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 540 double stitches and 60 corner stitches and are closed off – especially for SELECT – with a double knot. The ball lasts longer this way.

Hidden behind the colourful exterior of the balls in our Pro and Club Series is a Zero-Wing bladder made of high performance natural latex. The concept has been developed to ensure that not only the ball but also the bladder is as round as possible. We solely use latex bladders in our handballs with built-in balance point at the opposite side of the valve hole. This, together with the Zero-Wing concept, ensures a perfectly balanced ball with a very lively bounce.

To stabilise the ball and to ensure it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness as well as the weight of the ball.

The most important factor regarding the softness of the ball is actually a layer of neoprene foam, which is placed between the lining and the synthetic leather. The foam maintains its softness and elasticity match after match.

The synthetic leather used in our handballs consists of an outer layer of "grippy" PU with a backside of non-woven polyester fibre. In addition to this, the special fibre threads are inlaid in a crisscross fashion to ensure the strength and stability of the material. This ensures a ball with a perfect grip, optimal balance and extreme durability.

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance.

Ball size	Circumference
00	41-43 cm
0	46-49 cm
1	50-52 cm
2	54-56 cm
3	58-60 cm

DUAL BONDED

- DUAL BONDED FOR A SOFTER TOUCH AND IMPROVED ROUNDNESS

The special feature of the dual bonded method is that the ball's 32 panels are both stitched together and then glued in the edges.

The ball is constructed with an outer PU material laminated with 2 mm. foam and then an extra inserted 3 mm. layer of foam between the surface and the inner bladder. The panels are printed with 3 mm. edge glue and stitched by hand or machine.

The glue in the edges is activated in a heat mold to hide and seal the stitching, which means that the gathering of the 32 panels cannot be felt, and the ball therefore becomes even more round.

The DB method is used in our handball, FORCE DB, Light Grippy DB and Torneo DB. The bladder in this ball is a reinforced SR bladder with excellent airtightness for increased stability and controlled bounce. The overall combination of the materials and the production method gives the feeling of an incredibly soft handball with improved grip and roundness.

THE WORLD'S FIRST INTELLIGENT HANDBALL **ULTIMATE iBall**

INTELLIGENT SENSOR FOR AUTOMATED PERFORMANCE MEASUREMENT:

- Shot detection
- Shot speed
- Pass detection
- Pass speed

ULTIMATE iBall WITH A BUILT-IN CHIP THAT TRACKS AND **DISTRIBUTES DATA** IN REAL TIME

SELECT presents the world's first intelligent handball, Ultimate iBall, with a built-in chip that tracks and distributes data in real time.

The handball premiered at the VELUX EHF FINAL4 2018. This was the first major in European sports to use the new tracking technology capturing exact ball speed, shot detection, position of the shot and more bringing fans closer to the game. Currently, the iBall is used in both Champions League FINAL4 and EURO finals for men and women.

The SELECT Ultimate iBall and the associated new insights into the game will make the performance of players more tangible and result in a significant increase in fan engagement.

iBall TECHNOLOGY

Spectators are able to observe the speed of the ball and the distance from goal for every shot in the game.

The shot distribution on court from one team or a specific player will be displayed for broadcasting and digital channels.

The position of every shot entering the goal will be displayed, illustrating scoring strategies. All information is detected automatically and in real-time with interfaces for both broadcast and digital channels.

MORE ABOUT IBALL

EHE

EUROPEAN HANDBALL FEDERATION

EHF CHAMPIONS LEAGUE

EHF EUROPEAN LEAGUE

The stars of Europe's most prestigious handball competitions are playing with a quality match ball from SELECT.

SELECT's agreement with EHF includes us providing the official match ball for all the top EHF competitions, including the EUROS as well as the EHF Champions League Men and Women, and the EHF European League Men and Women.

Each season, we will present a new high-class design for both EHF Champions League competitions as well as a powerful and dynamic ball for both EHF European League competitions. Those designs will feature main elements of the EHF brand identity and resemble the core values of these competitions.

REPLICA EHF EURO MEN V24

Style no. 220034 Size 3, 2, 1, 0

The Ultimate EHF Euro Men v24 is the official match ball for the Men's EHF EURO 2024 in Germany, and this year we can present the new design. We are proud to be the official handball supplier of the Men's EHF EURO once again.

The Men's EHF EURO 2024 will be the first, since the competition format expanded to 24 nations, to be played in one country. The aim is to break the attendance record for a handball match by holding the opening match of the championship inside the 50.000-seater Merkur Spiel Arena in Düsseldorf. In total six cities will help host the event, and the final weekend will be held in Cologne's famous handball arena, the LANXESS arena.

PLANET HANDBALL

We are adding a new member to our SELECT Planet Family - a handball partly made from recycled plastic bottles! We call it Planet Handball.

- The new match ball is partly made from recycled
- plastic bottles and natural latex. This reduces the ball's environmental impact.
- 4 PET bottles have been used for one Planet handball.
- The ball's surface, together with a 4 mm foam lining, ensures optimal grip and ball control.
- Inside the ball, a Zero-Wing bladder ensures optimal roundness.
- The ball is light and lively, but above all its constant balance ensures that there are no random bounces.
- The ball is hand-sewn.
- EHF-approved.
- Size Senior (3), Junior (2)

The new Planet handball will be available from September 2023.

BASELAYER

- FUNCTIONAL UNDERWEAR FOR **SPORTS WITH LIGHT COMPRESSION**

We are introducing our new range in underwear for sports, Baselayer, with recycled polyester that offers warmth and light compression, mobility and comfort during training and sports.

All styles in the Baselayer range are made with Repreve® Polyester, a type of yarn made from recycled plastic bottles. The knitted fabric made from recycled polyester is breathable, quickdrying and added an antibacterial treatment to ensure odorless clothes.

GOALKEEPER GLOVES

AN ANATOMICAL **WORK OF ART**

The top model 88 PRO GRIP consists of 3 mm Quartz Latex guaranteeing a perfect grip in all weather conditions. The latex is wrapped from palm to backhand maximising the catching area, and the negative glove cut provides constant latex contact between the hand and the ball. The soft airprene inside provides optimum comfort, increases the glove's flexibility and ensures minimal water absorption when playing in wet weather.

With the aid of an Anatomical Fit System the gloves have been designed with a slight bend according to the natural gripping position of the hand. Thus ensuring comfort, flexibility and movement of the glove aligned with the speed of the fingers.

A wide wrist strap allows a feeling of stability and safety in the wrist. The wrist is asymmetric and has an elastic insert to ensure easy entry into the glove.

Types of cuts

Negative Cut

A popular glove cut choice that reminds of Flat Cut. This style of cut also has gussets between the palm and the backhand. The gussets of the 88 glove are also made of latex giving constant latex contact between the glove and the ball. Negative Cut fits snugger and the fingers are held in place giving optimal ball contact when catching. This is the most common cut among professionals.

Flat Cut

Traditional glove cut with a flat palm construction providing a larger area of contact and making the glove more flexible. This style of glove typically fits looser than many other styles with more room for the fingers. Flat Cut is the most popular cut used for finger protection gloves.

Latex technology

Ultra Pro Latex

Latex suitable for training and matches. Optimised softness and good durability make this foam the ideal foam for children's gloves. 3 mm latex with 3 mm foam lining

Flexion Latex

Latex suitable for training. Special latex construction for enhanced durability. The foam is less soft than the other types of latex we work with, as the focus is on durability. 3 mm latex with a 4 mm foam lining compensates for the slightly harder

Adhesion Plus Latex

Premium latex. The right choice for the professional goalkeeper in terms of grip, softness and durability. Ensures a perfect grip in all kinds of weather and excellent feel with the ball. 3 mm latex with 3 mm foam lining on the back.

This latex is used by many goalkeepers at the highest level.

Premium latex. Suitable as both match and training gloves. Soft and durable latex that is best suited for rainy weather. This Aqua latex guarantees you a more secure grip on wet days, whether there's heavy rain or it's a damp autumn day. 3 mm latex with 3 mm foam lining.

Quartz Latex

Premium latex. Ideal for professional goalkeepers. Improved softness ensures a perfect grip in all kinds of weather and excellent ball control. 3 mm latex with 3 mm foam lining on the back. The Quartz latex contains dots in grey pigment. The dots bind the latex molecules together, making the gloves more resistant and ensuring that they last longer. The dots also provide a firmer grip. This latex is used by many goalkeepers at the highest level.

Professional grip latex

All-round superior latex in black, suitable for both matches and training. In terms of price, this latex is just below the premium gloves, and is therefore also a favourite for amateur players. Guarantees a good grip for goalkeepers in all kinds of weather. 3 mm latex with 3 mm foam lining. This latex is used by many goalkeepers at the highest level.

Very high quality foam for superior gloves. Has a good grip quality, although this does mean that the glove needs to be cleaned more often than other types of latex. Good grip in all weathers and good durability. 3 mm latex with 3 mm foam lining

Dura Grip

Latex suitable for training. Special latex construction for enhanced durability. The gripping quality is therefore less strong than the superior gloves. 3 mm latex with 3 mm foam lining

New Basic

Latex suitable for training. Special latex construction for enhanced durability. The foam is less soft than the other types of latex we work with, as the focus is on durability. 3 mm latex with 3 mm foam lining

New Softy Latex

Latex suitable for training. Special latex construction for enhanced durability. The foam is less soft than the other types of latex we work with, as the focus is on durability. 3 mm latex with a 4 mm foam lining compensates for the slightly harder latex

Glove technology

Anatomic Fit System

Ensures correct fit, as the glove is designed according to hands' natural grip position

Punch Zone

In non-sliding material for increased force and reduction of the rotary effect on the ball

Extra wide wrist strap for improved support and comfort

Comfort

Mesh on the inside of fingers to ensure good air circulation

Flexibility

Injection mold spiderweb design for a lightweight feeling and increased flexibility

Protection

Fixed guards

For reinforcement and protection of the fingers

fingertips

For stability and impact protection

Measure the length of the hand as shown and find suggested sizes in the chart below.

Bring your own massage therapist everywhere

Kristoffer Glavind Kjær, Body Therapist treating top athletes in cycling and handball and owner of ManuVision.

BALL-PUNKTUR & BALL-STIK

Ball-Stik and Ball-Punktur was developed more than 45 years ago by relaxation therapist Grete Wolfgang. Since then, the massage balls have become iconic and are used in gyms, schools and private homes.

The massage balls soften muscles, stimulate the blood circulation and create lymphatic circulation to reduce swelling.

They are produced in Denmark, and have been since 1972, with phthalate-free plastic.

Ball-Punktur is small and handy and can be brought everywhere.

Treating the Tour de France riders, Kristoffer Glavind Kjær has introduced the Ball-Punktur to help riders like three-time World Champion Peter Sagan recover from a day's race by reducing muscle tension, effectively strengthening muscles and increasing blood flow to help them perform at the highest level.

The massage ball also follows the Danish national handball team, as it was a part of the 2019 IHF Men's World Championship when they took first place, and Ball-Punktur was also a part of the Men's EHF Euro 2020.

SHIN GUARDS

LEGENDARY SINCE 1947

SELECT Sport was founded in 1947 by Eigil Nielsen, goalkeeper for the Danish national football team, who devoted his life to create the perfect ball. The name of the company was given because of the exclusive leather that was specially selected for the ball production.

By producing many of the ball industry's groundbreaking creations such as the first laceless football, the first ball with 32 panels and balls made of synthetic leather, SELECT naturally became a trendsetter.

Back in 1951, SELECT signed a contract to supply balls for the Danish national football team, and in 1957 SELECT was appointed official supplier by the Danish Handball Federation. These partnerships have continued ever since and are some of the longest in the history of sport. A large number of agreements with both remarkable football and handball federations, clubs and players have since been made.

Today, SELECT is known as the ball specialist. Our footballs, futsal balls and handballs can be found in more than 50 countries, and we are the world's largest supplier of handballs. More than three million different SELECT balls are produced each year through a close cooperation with Anwar Khawaja Industries in Pakistan.

We have been developing balls for 75 years, and the passion for innovative craftsmanship still lives on in our daily work. Football, futsal and handball matches around the world are played with balls built on Eigil Nielsen's original principle of 32 panels, just as most balls produced worldwide are based on SELECT's inventions.

1947 Eigil Nielsen develops his first football and his first football and SELECT is born.

SELECT presents 1951 the world's first laceless football.

1962 SELECT presents the world's first 32-panel football.

2017 The world's first resin free hands resin free handball, Maxi Grip

2018 SELECT presents the world's first intelligent handball, the SELECT

SELECT presents the world's first Ultra Sonic football.

1974 SELECT presents the world's first hand-sewn PU football.

2012 SELECT presents the world's first intelligent football, the SELECT iBall.

2021 Planet football, a match and training ball, made partly from recycled plastic bottles and natural latex

2022 SELECT presents, together with KINEXON, the first FIFA approved football with an integrated tracking sensor.
